

## We Sell to You, Not Your Customers

WireXpress supplies distributors nationwide with inventory ranging from electrical and electronic wire and cable, to communication and security products. We're a redistributor, so we never sell directly to your customers. Our goal is to help you sell more, by listening to your needs, developing efficient solutions, and providing the highest quality products and services.

## More Than Just Wire

The WireXpress network of 40-plus warehouses spans across the United States. You'll have easy access to nearly 600,000 products from over 500 different manufacturers. No other redistributor in our industry offers a more comprehensive inventory. With more products to sell, you'll have more sales opportunities.

## Cost Savings

No drop-ship charges. No cut charges. And no minimum orders. WireXpress helps keep your costs in check by offering these services for free. Because we carry more stock, you can carry less stock.
