

WireXpress

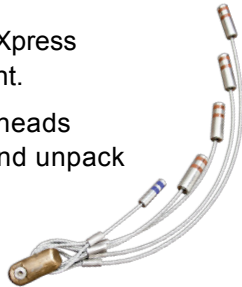

COST CUTTING SOLUTIONS

Reduce installation costs, save time, improve safety and increase social distancing with WireXpress' installation enhancement services. WireXpress can perform time-consuming and labor-intensive installation tasks in our facilities before shipping to save you time and money at the jobsite.

Pre-Installed Pulling Heads

Whether 600V or medium voltage, WireXpress can install pulling heads prior to shipment.

- Eliminates onsite labor for installing heads
- Reduces material to order, receive and unpack
- Minimizes the need for tooling
- Provides more security and heads

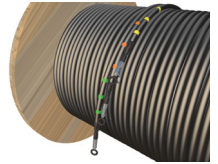

Applicable Cables

- 5 and 15KV medium-voltage cables
- Building wire
- DLO cable
- THHN/XHHW wire

Paralleling and Phase Taping Solution

WireXpress can aid in growing your sales and average order size along with helping your contractor customers reduce labor costs with our paralleling solution.

- Multiple cable runs on ONE reel
- Faster cable installation
- Decrease labor cost
- Increase labor output

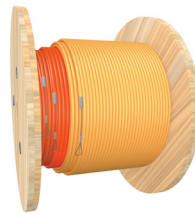

Applicable Cables

- Medium-voltage cables
- Building wire
- Solar PV cables
- THHN/XHHW wire

Layering Solution

WireXpress' layering solution reduces the number of reels at the jobsite by layering multiple circuit lengths on the same reel.

- Reduces reels to order, unload, store, find, transport and set up for pulls
- Minimizes labor to move reels to the pull site, cutting costs and improving safety
- Decreases waste and reel disposal costs
- Reduces unproductive labor

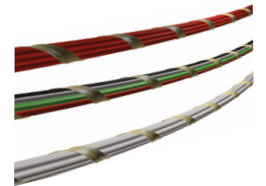

Applicable Cables

- Medium-voltage cables
- Building wire
- DLO cables
- THHN/XHHW Wire

SPEEDPULL®

SPEEDPULL reels bundle multiple, numbered circuit conductors to allow for a single pull.

- Reduces material scrap
- Allows for easy breakouts
- Makes identification and termination easy
- Provides easy estimating for length verification
- Simplifies material management at the jobsite

Applicable Cables

- Hook-up wire
- Building wire
- Communications cables
- THHN/XHHW wire
